EDUCATION

SBPCOE, Pune University

Bachelor Of Engineering [Mechanical Engineering GPA: 7.30/

Pune, Maharashtra, India

2017 - 2020

WORK EXPERIENCE

iQuest Management Consultants Pvt. Ltd

Software Developer-React

Pune, Maharashtra, India

Sept 2024 - Present

- Published a private, free-hosted NPM library of MUI tables and Chart.js/D3.js charts on GitHub Packages, tailored for internal company projects, with React, TypeScript, detailed documentation, and robust testing using Jest.
- Developed scalable React applications from scratch, leveraging Material-UI for responsive UI design, and integrated Figma designs into reusable components using TypeScript, HTML, and CSS.
- Implemented REST API integrations with optimized state management and ensured high performance and code quality using Jest and Cypress for testing.
- Collaborated in an agile environment to deliver pixel-perfect designs, ensuring cross-browser compatibility and seamless user experience.
- Utilized Git for version control and efficient collaboration, following best practices for branching, code reviews, and CI/CD workflows.

Cognizant Technology Solutions India pvt ltd

Programmer Analyst

Pune, Maharashtra, India

Feb 2022 - May 2024

- Developed reusable web components using React JS, enhancing code efficiency and maintainability through functional programming and custom hooks.
- Gathered and defined customer requirements as a software engineer to develop clear specifications for project plans, ensuring alignment with business needs.
- Worked on client-side applications with React and JavaScript, and held knowledge in server-side development with Node.js, focusing on REST APIs and common interceptors for seamless functionality.
- Utilized Redux for global state management, proficiently working with middleware's like Redux-Saga for effective asynchronous actions.
- Collaborated with distributed teams, including business analysts and product owners, in an Agile environment to ensure efficient project development and iteration. Employed modern JavaScript ES6 features, React hooks, and libraries such as Formik for form handling.
- Conducted code reviews, implemented testing with Jest, and maintained focus on performance optimization and security best practices.

QSpiders: Software Training Institute

Full Stack Java Development

Pune, Maharashtra, India

July 2021 - Jan 2022

- Covered core Java, Spring Boot, Hibernate, REST APIs, front-end technologies (HTML, CSS, JavaScript, React) and MySQL database.
- Hands on practice on version control (Git), deployment tools, and hands-on project development.

PROJECT

NetflixGPT *React.JS, JavaScript, Redux, OpenAI API, Firebase* <https://netflixgpt-react-app.netlify.app/>

- Developed NetflixGPT, featuring user authentication, form validation, and profile updates with React, Redux, and Firebase. Integrated TMDB API for movie data and trailer videos, styled with Tailwind CSS, and implemented custom hooks for fetching and displaying content. Utilized Open-Ai's GPT for multi-language search and movie suggestions, enhancing user experience with dynamic recommendations.

AWARDS

Hats Off Award

- Received Award for consistently meeting client deadlines and ensuring timely delivery of projects.

MERN Stack Certification [Hackerrank]

- Passed coding assessment in React, JavaScript, CSS, HTML, Node.js, Express.js, MongoDB

SKILLS

Languages::	JavaScript, Typescript, HTML
Frameworks::	React, Express.js, Bootstrap
Libraries::	Redux, React router, Context API, Jest, Mongoose
Stylesheet Languages::	CSS, SCSS, Material UI
Developer Tool::	Git, Figma, Webpack, Docker, NPM, Bitbucket, Confluence, CI/CD
Database::	MongoDB, MySQL
Cloud::	AWS EC2, S3, RDS, DynamoDB
